• Demonstrated and implemented a practical understanding of lighting, the photography process, and color theory.
• Created and built up an online community though social media to promote work and attract clientele.
• Strengthened brand to engage social media community by producing creative and compelling content.
• Put together, lead and participated in collaborative projects with other makeup artists.

Projects

To Clarify - MERN Application

http://toclarifyapp.herokuapp.com/

https://github.com/HaileyThomas/ToClarify

To Clarify is a project management solution that facilitates better communication and, as a result, increased client satisfaction. Built with MongoDB, GraphQL, React.js, Express.js, and Bootstrap.

Book Club - Full Stack Web Application

https://book-club123.herokuapp.com/

https://github.com/HaileyThomas/book-club

Interactive full stack web application where users can sign up and discuss featured books. Created using Node.js, Express.js, Sequelize, Handlebars.js and Bulma.

Monster Managment - Content Containment System

https://drive.google.com/file/d/18kDH_H9czuoDG4F4f-HjWe8AAH94hxOg/view

https://github.com/HaileyThomas/monster-manager

Back end content management system inspired by Monsters Inc. View video for full demonstration. Created using Node.js and MySQL.

Weather Dashboard - Front End Web Application

https://haileythomas.github.io/weather-dashboard/

https://github.com/HaileyThomas/weather-dashboard

Front end web application created using third-party-api Open Weather API, Javascript and Bulma.
